A course to understand about and develop radio production skills.

### What Happens During The Course

Students will learn about radio production skills, including how to record and edit, use audio equipment and understand appropriate health and safety measures relating to production work.

Students will also learn how to assemble a personal career portfolio to demonstrate their skills to potential employers.

They will work in the radio station gaining work experience in the radio production department, helping to edit and produce pre-recorded features and programmes.

Their work experience will be compatible with their qualification. They will develop IT and multi-media skills.

### Key Benefits Of Taking This Course

- Ofqual recognised qualification
- Work experience on an FM radio station
- Professional radio tutor
- Build your own portfolio
- Work reference
- Work Ready session with HR Manager from Emma Bridgewater

### Open College Network West Midlands Unit Titles
